To: Nicholes, Nichelle

Nicki,  
The contents of each kit will perform the same BASIC function.  
But as I've shown you, there are differences in their appearances (my  
earlier E-mail was just a double check to avoid any potential  
problems in packaging/distribution).  
I'll bring another of each to you this PM.

Vince

Vince, the contents of the two 15 piece kits is not different. They both contain a set of  
attachable screws and wrenches, right. If this is not correct please let me know.

Marcella,  
Incoming Tool Kits will be identified as follows:

15 piece kits: Pos 74144  
16 piece kits: Pos 74149

Quantities produced per supplier:  
AMS: 354,000 15 piece  
360,000 16 piece  
Von Pok & Chang: 411,000 15 piece

Some key points:

- The kits produced by AMS (15 and 16 piece) use the same exact case.
- The 15 piece kit produced by Von Pok & Chang is smaller than AMS's.
